#### **GENERAL SAFETY RULES**

## 

Read carefully and understand all **ASSEMBLY AND OPERATION INSTRUCTIONS** before operating. Failure to follow the safety rules and other basic safety precautions may result in serious personal injury.

**CAUTION:** Do not allow persons to operate or assemble this Lifetime Series Lantern Garden Lights until they have read this manual and have developed a thorough understanding of how the solar lights work.

WARNING: The warnings, cautions, and instructions discussed in this instruction manual cannot cover all possible conditions or situations that could occur. It must be understood by the operator that common sense and caution are factors which cannot be built into this product, but must be supplied by the operator.

#### SAVE THESE INSTRUCTIONS

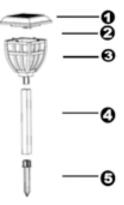

#### FEATURES

- Robust & attractive aluminum alloy housing
- Solar powered by high quality crystalline solar panel
- Super bright white LED
- > No wiring or trenching required
- Up to 8 hours of light time
- > Solar Rechargeable LifePO4 800mAh batteries included with lifetime replacement

#### PARTS LIST

Part#	Description	Qty.
1	Lamp Shade Cover	1
2	Battery	1
3	Lamp Shade	1
4	Pole	1
5	Ground Stake	1

#### **USE AND CARE**

- **Do not modify the solar lights in any way.** Unauthorized modification may impair the function and/or safety and could affect the life of the equipment. There are specific applications for which the solar lights were designed.
- Always check of damaged or worn out parts before using the solar lights. Broken parts will affect the solar lights operation. Replace or repair damaged or worn parts immediately.
- Store idle solar lights. When solar lights are not in use, store it in a secure place out of the reach of children. Inspect it for good working condition prior to storage.

#### ASSEMBLY

- 1. Carefully remove the solar light and all the fittings out of the box.
- 2. Ensure there is no battery tab in the battery compartment.
- 3. Let solar light charge for 2 sunny days in the OFF position. Then turn to ON position
- 4. Attach the lampshade cover to the lamp shade and secure it by turning clockwise.
- 5. Attach the pole to the bottom of the lamp shade.
- 6. Slide ground stake into the bottom of pole.
- 7. Push the stake directly into the ground where it will receive full sunlight.

#### **OPERATION**

The performance of the solar lights will vary with the time of year. It will deliver more light when it has had a full day in the sun rather than a day in overcast weather. Likewise it will deliver longer run time in the summer than winter. The solar lights must be left to charge in the OFF position for a minimum of 2 sunny days upon purchase before best results are achieved.

#### **LOCATION OF LIGHTS**

For best results, please locate your solar lights in a position where it can absorb direct sunlight on the solar panel, and generally free from cover and shade.

#### TROUBLESHOOTING

If your solar lights do not come on at dusk despite observance of all the instructions, please try the following steps:

- 1) Make sure that the solar light is not being affected by any other light source.
- 2) Ensure the solar light does not stand in the shade during the day.
- 3) Make sure the switch is in the correct position.
- 4) Check that the batteries are installed correctly.
- 5) If your solar light turns on during the day, usually the sensor needs to be reset. To do this, turn the light into the OFF position and take it into a dark room. Switch to the ON position and once the light comes on, the sensor has been reset.

#### **REPLACING THE BATTERIES**

For best results the batteries should be replaced every 12 months.

- 1) Turn the lamp upside down. Detach the lamp shade cover from the lampshade by twisting it counter-clockwise.
- 2) Remove the old batteries. Make sure the new batteries are the same type rechargeable batteries.
- 3) Install the new batteries in to the battery compartment, ensuring the correct polarity is observed.
- 4) Reassemble the unit by reversing the above procedure.

#### MAINTENANCE

**Maintain your solar lights.** It is recommended that the general condition of any solar lights be examined before it is used. Clean the solar module with a damp towel to insure optimum performance of the solar lights. Do not use any type of solvent for cleaning and be careful not to put too much pressure on the module while cleaning.

#### LIMITED WARRANTY

Nature Power warrants our products to the original purchaser that this product is free from defects in materials and workmanship for the period of one year from date of purchase.

Dated Proof of Purchase is required.
